Education

Bachelor of Technology – Computer Science & Engineering 2022 – 2026
SASTRA Deemed University, Thanjavur, Tamil Nadu
CGPA: 7.03/10

Relevant Coursework: Data Structures, DBMS, Operating Systems, OOP, Computer Networks, Web Development, Machine Learning

Technical Skills

- **Programming Languages:** Python, C++, C, Java (basics), JavaScript (basics)
- **Web Development:** Flask, HTML5, CSS3, SQLite, REST APIs
- **Machine Learning:** scikit-learn, Pandas, NumPy
- **Tools:** Git, GitHub, Streamlit
- **Concepts:** Software Development Life Cycle (SDLC), Object Oriented Programming (OOP), Debugging, Testing, Documentation

Projects

City Sahayak – Domestic Help Finder (Flask Web App)

- Full-stack web app using Flask & SQLite for helper search, photo upload, and admin panel.
- Implemented user authentication, search filters, and documented design/testing phases.

HealthCheck – Symptom Checker with AI Chatbot

- Flask-based web app with chatbot interface, symptom history tracking, and PDF export.
- Integrated pre-trained ML model for disease suggestions and applied SDLC approach.

Crop Yield Prediction – Machine Learning Project

- Built Random Forest model using soil & weather datasets (85% accuracy).
- Deployed prototype on Streamlit with feature visualization.

Diabetes Prediction – Machine Learning Mini Project

- Developed SVM & Logistic Regression models on diabetes dataset.
- Performed feature validation, testing, and error analysis.

Certifications

- **Introduction to Artificial Intelligence** – Coursera (2025)
- **Data Science Course** – Infosys Springboard (2025)
- **Databases with Python: MySQL, SQLite & MongoDB** – Udemy (2025)
- **Career Essentials in Software Development** – Microsoft & LinkedIn (2024)
